Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Detailed Action

Response to Amendment

Claims 1, 5-6, 11-12, 14, and 16-27 are pending. This action is in response to the amendment received October 24, 2005.

Response to Arguments

The rejection of claims 1, 5-6, 11-12, 14, and 16-27 under 35 U.S.C. 103(a) as being unpatentable over Magill (US 2004/0143542) and Kane (US 6,317,728) is maintained.

Applicant's arguments filed October 24, 2005 have been fully considered but they are not persuasive.

In response to the arguments concerning the previously rejected claims the following comments are made:

A.) In response to applicant's arguments, the recitation trading has not been given patentable weight because the recitation occurs in the preamble. A preamble is generally not accorded any patentable weight where it merely recites the purpose of a process or the intended use of a structure, and where the body of the claim does not depend on the preamble for completeness but, instead, the process steps or structural limitations are able to stand alone. See *In re Hirao*, 535 F.2d 67, 190 USPQ 15 (CCPA 1976) and *Kropa v. Robie*, 187 F.2d 150, 152, 88 USPQ 478, 481 (CCPA 1951).

B.) Applicant alleges that the prior art made of record fails to teach first sub-interface allows a user to modify algorithm by changing a mapping between an event and an

Art Unit: 3624

action. The examiner disagrees with applicant's representative since Magill teaches first sub-interface allows a user to modify algorithm by changing a mapping between an event and an action (para. 0056). In other words, an event is an action or occurrence, often generated by the user, to which a program might response—for example, key presses, button clicks, or mouse movements. Magill teaches a user customizes a color scheme thus he is modifying a color by changing an event and an action.

C.) Re claims 25-27, Magill teaches a securities trading order (para. 0057).

With regards to the claims rejected as taught by Magill and Kane, the examiner would like to point out that the reference teaches the claimed limitations and thus provides adequate support for the claimed limitations. Therefore, the examiner maintains that Magill and Kane taught the claimed limitations.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3624

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
